ABOUT ME

Hello, Ajnur Radovic here. I started learning how to code through FreeCodeCamp and CodeAcademy. In the FreeCodeCamp I have spent quite some time, I have achieved Responsive Web Design, JavaScript Algorithms, and Data structures, and Front end Libraries Certifications. From the moment I have produced "Hello World" in the console of my first application, I was hooked in the world of Web Development. But Web development has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality web applications.
